SHARING LIFE

2023-24

Annual Report

We have completed yet another momentous year in our journey of exploration of our destiny. This has been, in many ways, an extension of the grace of the Almighty in directing our steps to uplift the needy and care for the marginalized. We have been joined in this journey by many new faces, both needing a hand and lending a hand. And this meeting of minds and purpose has been extremely satisfying, to say the least.

We were able to expand our operations to as yet unexplored facets, and while this definitely brought with it its own set of challenges, we were more than compensated by the enormous hands of help that helped us meet some, if not all, of those challenges.

The Annual report is a comprehensive snapshot of our operations during the year under report. And yet numbers cannot truly reflect the achievements that we have felt and reflect. A contented smile, the joy of achievement, the satisfaction of crossing an invisible barrier, these are the true measures of success that we desire, cherish and treasure.

And all this is only possible through the most generous contributions from our patrons, donors and well-wishers. We are but a channel that the benefactors have put their faith in to channel their generous donations to the truly needy and desperate. We are thankful for their munificence and continue to pray for their steady and regular support.

Our execution partners, the actual hands and feet on the ground, are our backbone. Over the years, it has been a truly symbiotic relationship that we have had wherein we have both nurtured and grown each other to greater heights. We express our sincere thanks for their yeoman efforts. This team has grown in numbers and in quality and we are thankful for their approach to understanding the issues on ground.

As I sign off this report, it is with the deepest gratitude that I do so, knowing full well that the task at hand is enormous but that the hands that support us are more so. Therefore, with renewed vigour and a promise to stay the course, to run the righteous race, to face and slay the obstacles, we dedicate ourselves and present to you the Annual report for the year 2023 – 2024.

INTRODUCTION ABOUT LOG FOUNDATION

LOG Foundation is a registered public charitable trust which has been set up to support humanity, and for the purpose of undertaking charitable work throughout India, for social upliftment, alleviating human suffering, eradication of illiteracy and poverty, and for undertaking other philanthropic work. We desire to meet people in need at their place and share our resources plus encourage them to take steps towards restoring their life. We are registered under Sec 12 A of the Indian Income Tax Act and donations to us are exempted for Tax basis regulations under Sec 80G for AY 2022-23 to 2024-25.

Charity was a matter of emotions, convenience and sometimes recognition for a major part of our life. However, it turned into a conviction when we experienced the Love of God in our lives. LOG Foundation is the structuring of our convictions so that we could make meaningful and visible impact possible in people's lives by standing with them in their times of desperate need. Sharing the beauty of grace, and hope in life, with a purpose and intent to ones in need is our goal.

We are a grassroot level organization reaching out to the most marginalized and the vulnerable, children and families in society. The nature of the intervention and the means of delivery of services is adaptive - changing as per the context, circumstance, and need. Through our interventions we have tried to reach out to the people in need; children in orphanages, giving a ray of hope, supporting and helping the rag picking community of children with a holistic development focus, supporting single parents in bringing up children and support for their education, with building homes and shelters for the low-income group, medical aid for needy people even to the extent of building medical facilities where feasible, and sometimes just individuals who would go far with a kind word or deed.

We hope to continue to evolve benefitting more and more children, individuals and families in need and eventually leading to more empowered individuals growing up to be respected and responsible citizens of the country.

We were able to partner with LiveJam, a trust registered with the Government of India, in reaching out to 72,241 youths, in 21 cities, with emotional support through various delivery mechanism.

I've learnt that I need to be kind to myself as well as others. Many people are going through rougher times than our own, and we need to acknowledge that and treat everyone the same way we would like to be treated.'

ADF India Trust

It was highly gratifying to be able to provide legal support and training through ADF India Trust to people across India, especially to those who were facing dire challenges.

People who felt unsafe in society, whose properties were demolished, means of sustenance disrupted and their way of life destroyed were given training in being informed of their rights and the way to redress their grievances.

As in the previous year, we are thankful that we got an opportunity to support the educational needs of 3 children who are affiliated with Deepalaya, a well-known non-profit organisation that focuses on educating the marginalised.

We were also able to support an elderly retired teacher with his basic needs. In a symbiotic understanding, the teacher returns the favour by giving free tuitions to poor children.
